

# The Australian Environment Show

Focusing on the importance of the gum tree, and how people, animals and insects rely on them everyday.

A Captivating & Theatrical Journey that will have the children entertained as they sing & dance with Lea to songs about some of our Australian wildlife and trees. But it doesn't stop there, what letters of the alphabet do these things begin with? "e is for emu" – "e is for egg", plus many more familiar tunes along the way, helping to reinforce the little things they can learn.

**The Australian Environment Show** helps to bring an environmental and cultural awareness to the children. Through interaction the kids can discover some of the amazing - Animals, Insects, trees, plants, and even some recycling facts. These are just some of the things that can surround them everyday, when living in Australia.

This show is performed against a colourful rainforest backdrop, and set to professional sound recordings.

It even incorporates some of our live Australian Insects.

*The Australian Environment Show is enjoyed by children of all ages!*

**Exceptional Value for Money:**

At an affordable cost of just \$6.00 per child –

Bug Kidz, will plant a tree in your Centre's name, for the Koalas and you will receive a Certificate from The Australian Koala Foundation.
